**Product Features:**

|                                      |                                                                                                                                                                   |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Made in the USA                      | Designed and constructed domestically                                                                                                                             |
| Slim 24 inch width                   | Apartment-sized width offers all the functionality you need in a smaller footprint                                                                                |
| 24 inch depth                        | Shallower fit is ideal for L-shaped and galley kitchens                                                                                                           |
| Stainless steel finish               | Doors are constructed from brushed stainless steel for modern luxury built to last                                                                                |
| Professional stainless steel handles | Curved handles in brushed stainless steel offer an easier grip in attractive style                                                                                |
| Slide-in look                        | Low backguard trimmed in stainless steel makes it easier to integrate your own backsplash design                                                                  |
| Storage compartment                  | Bottom drop-down compartment is ideal for storing cookware, helping to free up space in your small kitchen                                                        |
| Four coil elements                   | Includes one 8" and three 6" coil elements                                                                                                                        |
| Meets UL-858                         | Designed to comply with the latest UL safety standards, the elements include a sensor that will cycle the element off and on if it reaches flashpoint temperature |
